Irvine Ranch Water District Awards
To Water-Related Science Fair Projects (2018)

Name	Grade	School	Project Title
Beverly Tsai Jane Jeon	6th	Beacon Park	A Frozen Liquid's Salinity and Its Melting Time
Krystal Tran	7th	South Lake	Nitrate uptake by Algae
Jenna Schindele	11th	University HS	Miracle Tree Water Purification
Chamidu Sagara	9th	University HS	The Study of How the Concentration of Acetic Acid in Water Affects Plant Growth in Drought Conditions

The students above have been selected for awards from the Irvine Ranch Water District for their water-related projects. In addition to its donation to support the Science Fair in general, IRWD will donate $100 to each of the winning students' schools for the purchase of needed science equipment or books. These students, their families, teachers and principals, will be invited to an awards ceremony on Tuesday, May 29, 2018, 5 PM at the Irvine Ranch Water District Board Meeting. Congratulations!
