2007-08 School Accountability Report Card Report (SARC)

The School Accountability Report Card (SARC), which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available at the [SARC](#) Web site. For additional information about the school, parents and community members should contact the school principal or the district office.

I. Data and Access

DataQuest

[DataQuest](#) is an online data tool that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP]), test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2007-08)

This section provides information about the school's goals and programs.

Our mission is to enable each student to become a contributing member of society with an appreciation for complexity and ambiguity, empowered with the knowledge, skills, and values necessary to meet the challenges of a changing world by providing the highest quality educational experience we can envision.

As parents and community members, we invite you to join us to continue to set high expectations for our students that will help them be successful in their post high school experiences. Educating our youth must be

a partnership. Together, we will build a better tomorrow

University High School, located in the southern part of the Irvine Unified School District, enrolled 2,307 students and an additional 109 students in the Deaf and Hard of Hearing Program grades 9-12 during the 2007-2008 school year. The ethnic and socioeconomic make-up of the student body represents a rich and varied mix. Ninety-six percent of University High's graduates enter post-secondary institutions. Of these, approximately 58% enter four-year universities and colleges. Thirty-three percent of our graduates entered community college, 2% entered trade or technical school or the military and less than 2% planned to work or travel. University High students have consistently been successful in national and state academic awards programs such as the National Merit Scholarship Program where 51 students qualified as semi-finalists in 2008. English speaking students make up a majority of the population.

Facility Conditions and Planned Improvements (School Year 2008-09)

This section provides information about the condition of the school's grounds, buildings, and restrooms, and a description of any planned or recently completed facility improvements.

Newly modernized in 2003-04, the University High School campus is attractive with updated classrooms, flooring, workspaces, some classroom and landscaping. The construction on a joint OCDE/IUSD twenty classroom building will be completed in December of 2008 which will enable the school to remove 22 relocatable classrooms currently placed on the blacktop area.

We have networked all of the classrooms for instructional and administrative purposes. We continue to purchase technology with grant funds and donations to support the instructional program. Each instructional classroom is equipped with a TV, VCR, DVD player, and a computer for student and staff use. Many classrooms utilize projection units from the computer to a pull down screen. Four computer labs are equipped with equipment for student use.

California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade 10 results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics in order to compute Adequate Yearly Progress (AYP) designations as required by the federal NCLB Act of 2001. Detailed information regarding CAHSEE results can be found at the [CAHSEE](#) Web site.

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the [API](#) Web page.

API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. These ranks are published when the Base API is released each March. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2005	2006	2007
Statewide	10	10	10
Similar Schools	9	9	8

API Changes by Student Group – Three-Year Comparison

This table displays by student group the actual API changes in points added or lost for the past three years, and the most recent API score. Note: "N/A" means that the student group is not numerically significant.

Adequate Yearly Progress

The federal NCLB act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the [AYP](#) Web page.

AYP Overall and by Criteria (School Year 2007-08)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

AYP Criteria	School	District

Participation Rate - English-Language Arts	Yes	Yes
Participation Rate - Mathematics	Yes	Yes
Percent Proficient - English-Language Arts	Yes	Yes
Percent Proficient - Mathematics	Yes	Yes
API	Yes	Yes
Graduation Rate	Yes	Yes

Federal Intervention Program (School Year 2008-09)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the [AYP](#) Web page.

XI. School Completion and Postsecondary Preparation

Admission Requirements for California Public Universities

University of California

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements please visit the [University of California](#) Web site.

California State University

Admission requirements for the California State University (CSU) use three factors to determine eligibility. They are specific high school courses; grades in specified courses and test scores; and graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses utilize local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For general admissions requirements please visit the [California State University](#) Web site.

Dropout Rate and Graduation Rate

This table displays the school's one-year dropout rates and graduation rates for the most recent three-year period for which data is available. For comparison purposes, data are also provided at the district and state levels. Detailed information about dropout rates and graduation rates can be found on the [DataQuest](#) Web site.

Completion of High School Graduation Requirements

Students in California public schools must pass both the English-language arts and mathematics portions of the California High School Exit Examination (CAHSEE) to receive a high school diploma. For students who began the 2007-08 school year in the 12th grade, as evidenced by that school year's October CBEDS enrollment, this table displays by student group the percent who met all state and local graduation requirements for grade 12 completion, including having passed both portions of the CAHSEE or received a local waiver or state exemption. Detailed information about the CAHSEE can be found at the [CAHSEE](#) Web page. Note: "N/A" means that the student group is not numerically significant.

Career Technical Education Programs (School Year 2007-08)

This section provides information about the degree to which pupils are prepared to enter the workforce, including a list of career technical education (CTE) programs offered at the school.

Students at each of our five high schools have opportunities to participate in CTE coursework where students explore careers in graphic arts, automotive repair and maintenance, business, music technology and theater technology. Our students also participate in career exploration coursework provided through the local Regional Occupation Center Program. In response to the Carl D Perkins Career and Technical Education Improvement Act of 2006 we have developed two programs of study providing introductory through capstone coursework and articulating with the local community colleges are:

Visual Technology, providing career pathways in the Arts and Entertainment industry sector (Media and Design Art).

Automotive Technology, providing career pathways in the Transportation industry sector (Vehicle Maintenance, Service and Repair).

The employment outlook data shows that employment is expected to grow with an additional 7,660 jobs in California by 2016 in these two areas. The program of study in Visual Technology is offered at each of the five high schools. Three of the high schools have an Auto Shop on the premises that is accessible to all students in the district. We have articulation agreements with the local community college establishing a pathway for our students to continue their CTE career in an Associated Arts degree or certificate program. Because most of our students and their parents are interested in continuing their CTE career preparation at a four year college or university, we have applied for and received college preparatory status for many of our CTE courses, meeting the UC a-g requirements for admission.

Professional Development

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

During the 2007-2008 school year, University High School continued to work on its designated goals with a special emphasis on Literacy in the classroom and assessment of student learning in relation to the state standards. In addition, UHS is working on two goals: In the core areas, refine, identify, and formulate classroom activities that promote the linkage of State Standards, assignments, assessment and the California Standards Test (CST); and Quantify, standardize and communicate student achievement of the ESLRs. Our six performance goals answer the question: What do we want all students to know and be able to do in order to be prepared for the future? They include: Critical Thinking/Problem Solving; Communications and Interpretation; Artistic Expression and Aesthetics; National and International Awareness; Personal and Social Development; and Interrelationship of Science, Mathematics; Technology, and Society.

Additionally, much time and effort is being given to developing a sound transition focus for students to assure them of skills they can gain to enter the work force and/or attend higher education. Students, parents and counselor meet at the end of the sophomore year to review educational progress and plan the student's program for the future.

Over the past several years, three days per year, or 18 hours, are allocated for targeted staff development activities, which occur on Thursday morning for on-going teacher collaboration and training.
