Lighting Improvements

Joe Chapin

Director of Maintenance, Operations & Transportation

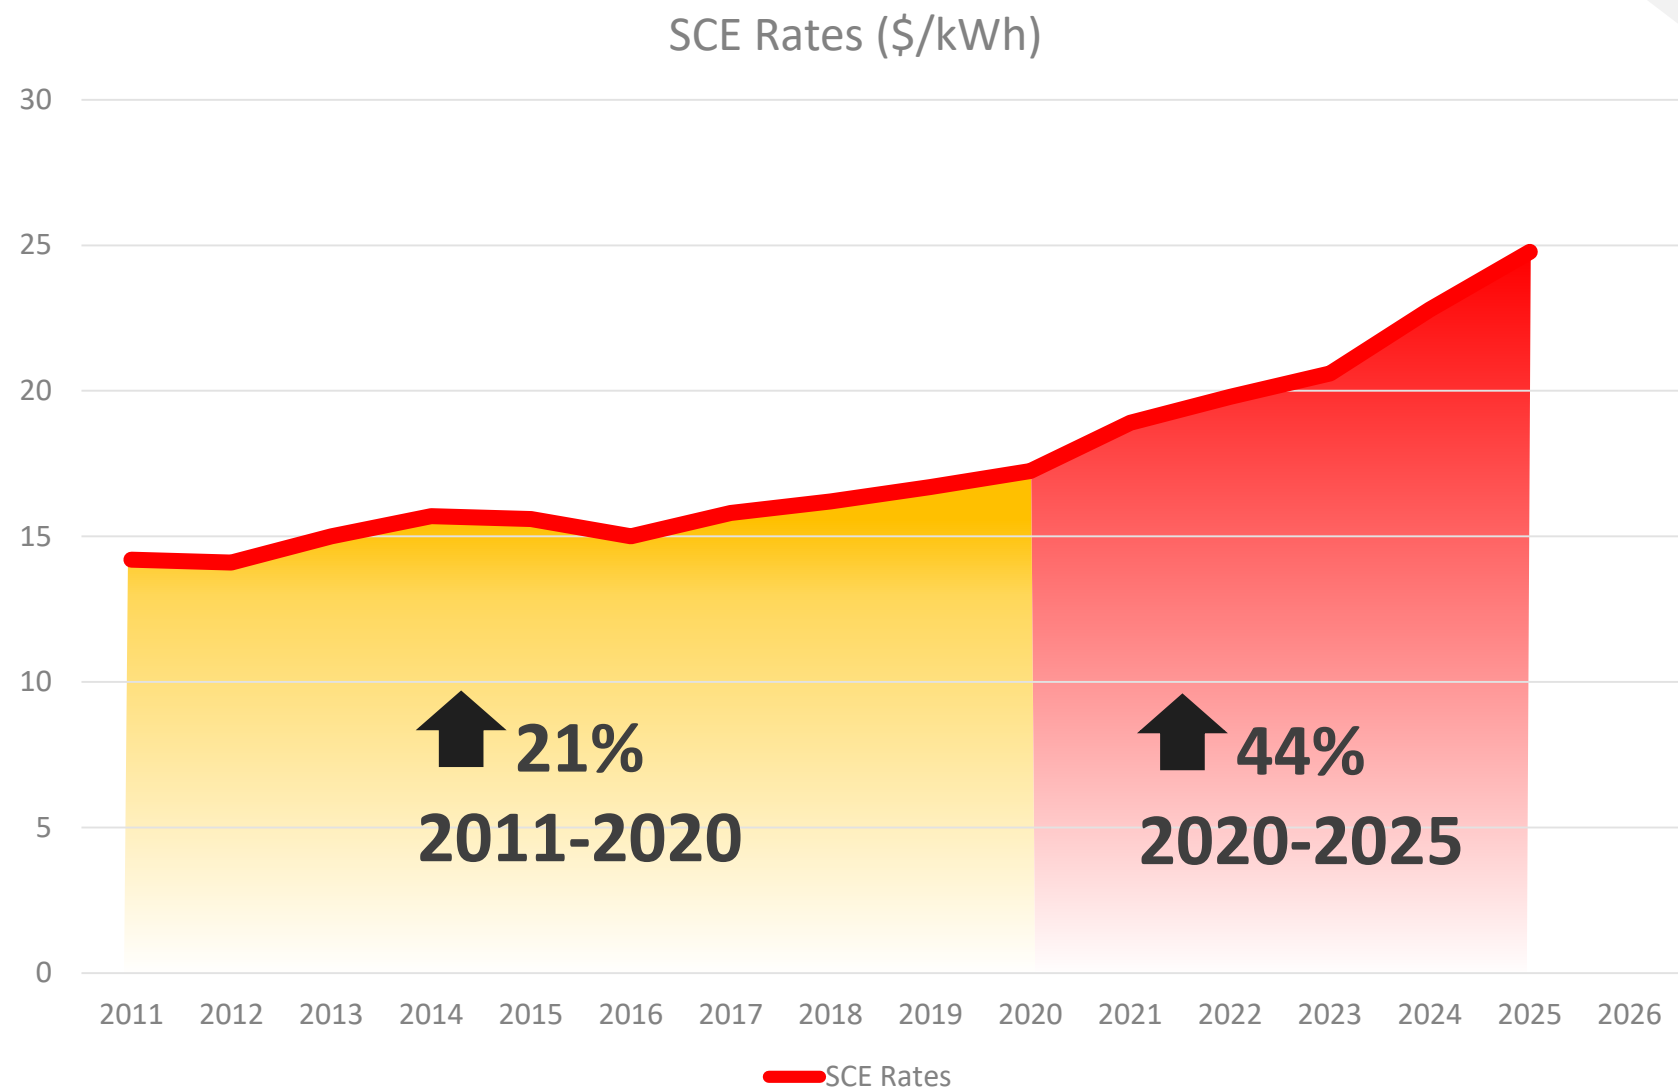

# Project Background & Need

## Lighting Improvements

- In 2022, Assembly Bill 2208 (AB 2208) banned the sale of mercury-containing fluorescent lamps to promote energy efficiency and reduce hazardous waste.
- District facilities currently operate using fluorescent lighting systems, with LED replacements occurring only as fixtures reach the end of their service life.
- Fluorescent lighting requires additional maintenance demands, parts availability issues, and long-term operational costs.
- LED conversion is necessary to ensure regulatory compliance, reliability, and efficiency.

# SCE Energy Rate Increases

# Project Approach

## Lighting Improvements

- Identify opportunities to remove and replace fluorescent lighting with energy-efficient LED lighting.
- Lighting replacements may include full fixture replacements or LED retrofit assemblies designed to fit existing fixture housing.
- New lighting to be selected to maintain current lighting color temperatures and illumination (brightness) levels.
- Identify funding opportunities to accelerate lighting improvements and help offset rising energy costs.

# Project Delivery

## Lighting Improvements

The District is authorized to use Energy Savings Performance Contracting under **Government Code 4217**.

To qualify:

- Project improvements should result in an energy savings to the District's General Fund.
- Energy savings need to exceed project costs within the performance timeline of the improvements.
- The Board of Education considers and approves energy savings contract at public hearing.

# Selection of Trane U.S., Inc.

## Lighting Improvements

- In 2021, the Board approved Resolution No. 20-21-30 to select Trane U.S., Inc. using Government Code 4217 for the Purchase and Installation of HVAC Systems, Transformers and Lighting Retrofits.
- Eleven (11) school sites received energy efficiency improvements under the program.
- The project resulted in a 28% reduction in energy use.
- Staff recommends the Board approve Resolution No. 25-26-28 to select Trane U.S., Inc. using Government Code 4217 for the Purchase and Installation of LED Lighting Fixtures and LED Lighting Retrofits.
