2021 School Accountability Report Card

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2021-22 School Overview

University Park was one of the first elementary schools built in the Irvine Unified School District in 1967. The staff and community are proud of its heritage and particularly its commitment to meet the challenges of providing a top-notch education to a dynamic population. University Park is a Title 1 school, houses one of our district's Newcomer English Learner Programs and serves our special education population with a Learning Center model, maximizing learning in the least restrictive environment. We celebrate the diversity of cultures as our families come from all over the world, and over 20 languages are spoken school-wide.

University Park's mission is to have ALL staff collaborate to create and implement a learning model that maximizes learning for ALL students in ALL learning environments. Our teachers attend professional development to ensure the implementation of best instructional practices. We at University Park consider the whole child and were one of the first schools to implement Positive Behavior and Intervention Support (PBIS) school-wide. We believe that if we teach expected behaviors and support that learning with positive reinforcement, we can maximize instructional time with a rigorous curriculum. Through PBIS, we teach and instill the habits of Punctual & Prepared, Respect, Integrity, Dependability and keeping Everyone Safe, known as Panther P.R.I.D.E. Additionally, we address students' social and mental health concerns with a Guidance Technician who provides social skills and problem-solving curriculum in the classroom, small group, and one-on-one support two days a week. Our Elementary Resource Counselor is on campus five days per week and provides small group, one-on-one counseling, and lunchtime social groups.

University Park teachers and staff focus on respect of the individual student, their learning strengths, and the belief that while students may have learning challenges, ALL students can learn.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: For more information refer to the Updated Teacher Equity Definitions web page at <https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp>

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

University Park was built in 1967 and is one of the original IUSD schools. In 2005, the school underwent extensive modernization of our campus, and we recently completed a renovation, including a new building with eight classrooms and a renovation of 12 classrooms. The modernization completed in 2005 provided our multipurpose room with new acoustics and lighting for stage productions, new playground equipment, and playground resurfacing, Nurse's Office and Conference Room. During this time, our library was expanded, and a computer lab was created with seating for forty students. In 2017 our computer lab was transformed into our Innovation Lab with flexible seating, multiple projectors, green screen, and enhanced technology for student use. Recent facility improvements include strengthening the technology infrastructure to support 1:1 access to technology throughout the entire campus, installing security cameras, and installing auto-lock doors to improve safety response systems.

In Fall 2018, our landscaping was renovated school-wide, including replanting the slope on Sandburg and all internal planters. Continued attention to ongoing maintenance keeps the school clean and well landscaped.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Subject	School 2019-20	School 2020-21	District 2019-20	District 2020-21	State 2019-20	State 2020-21

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2020-21 California Physical Fitness Test Results

Due to the COVID-19 crisis, the Physical Fitness Test was suspended during the 2020-2021 school year and therefore no data are reported and each cell in this table is populated with "N/A."

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2021-22 Opportunities for Parental Involvement

Research has shown that a major contributing factor to a child's success in school is directly related to their parent's involvement in their education at home and at school. We encourage a high degree of parent involvement in every aspect of school life. We have a strong PTA, and parent members on our School Site Council, and English Language Advisory Council. Parents volunteer in classrooms, our media center, and in our workroom on a daily basis.

As a Title 1 School, we have a Parent Involvement Policy that is reviewed and updated each year by our School Site Council, listing the variety of volunteer opportunities available to our community. In addition to volunteerism, parents are invited to goal setting and discussion of student progress at parent conferences each fall and spring. We also provide educational opportunities for parents that include parenting support through Irvine Family Resource Center, Family Math Night, PBIS, and GATE/APAAS information evenings. Our parents play an integral role in school improvement and our educational program through fundraising, classroom support, and participation in the LCAP process.

Parent-school dialogue is encouraged with community service activities, regular voice messages and emails from the school principal, regular email and newsletters from the classroom teachers, our school and district websites, individual student contracts, and student organizer notes.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Expulsions	0.00	0.00	0.03	0.00	0.08	0.00

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

2021-22 School Safety Plan

We have a comprehensive emergency preparedness plan which was updated in September 2021. The policy includes detailed procedures for various possible emergencies, including earthquakes, fires, site evacuations, and lockdown situations for intruders on campus. We work each year with the Irvine School District to perform monthly practice drills and simulate necessary communications utilizing satellite radios. Students are taught during these drills precisely what procedures to follow in the event of an emergency. All students are kept on campus and supervised by school staff.

Additionally, our staff is trained annually by district/site professional development activities and coordinated with the Irvine Police Department. Our school site staff identified emergency response teams, and each member has been trained in their responsibilities. Emergency supplies are maintained for the safety and protection of our students. We have phones installed in every classroom and an electronic security system in critical areas of the school.

Our school has developed a comprehensive Safe School Plan, which is evaluated yearly and amended as needed. Key elements of this plan include 1. Assessing the current status of school crime committed on the school campus and at school-related functions, 2a. Child Abuse Reporting Procedures, 2b. Disaster Procedures-Routine and Emergency, 2c. Policies for Suspension, Expulsion and Mandatory Expulsion, 2d. Procedures for Notification to Staff regarding dangerous students, 2e. Policies on Sexual Harassment, 2f. Policy relating to School Dress Code (especially gang-related apparel), 2g. Procedures for Safe Ingress and Egress of Pupils, Parents, and School Employees To and From School, two h. Procedures that Create a Safe and Orderly Environment Conducive to Learning at School and 2i. Rules and Procedures on School Discipline.

2020-21 Types of Services Funded

The Local Control Funding Formula (LCFF) has replaced California's previous method of allocating funds to school districts. In place of more than 40 specific funding categories, the LCFF model has established three sources of state funding with increased local discretion to determine how best to spend those funds in the service of students. All districts receive a BASE of the per-student funding that varies slightly depending on grade level. All districts also receive SUPPLEMENTAL funding. IUSD has used BASE and SUPPLEMENTAL funding to support the following programs:

Site Programs and Services: 1) Support professional learning and teacher coaching through induction program, content TOSAs and teacher mentor program , 2) provide summer school and summer athletic programs, 3) Allocating site funding and staffing to support student achievement through support of Professional Learning Communities (PLC) and site PLC coaches, 4) Elementary P.E. paraprofessionals, 5) Support for English language learners, 6) Elementary science, music, and art programs, 7) Purchase textbooks and instructional materials, 8) Develop a technology rich learning environment including; Technology matching programs, Technology Maintenance fund and site technology support staff, 9) Maintain previously implemented class-size reduction, 10) Additional secondary sections to reduce class size, 11) Middle school zero period program, 12) Maintain positive behavioral intervention and support program, 13) Maintain site staffing with full-time assistant principals, 14) 450:1 counseling ratio, support for large elementary schools and elementary classroom aides, 15) Support interventions and supplemental programs impacting English learners, low income and foster youth, 16) Continue to build Career-Technical Education pathways and blended On-line learning opportunities for students, 17) Develop mental health and wellness programs and hire district and site based staff including support for the Irvine Family Resource Center.

Finally, CONCENTRATION grant funding equal to 50 percent of the base is provided to districts in which English learners, low-income students, and foster youth exceed 55 percent of the total enrollment. Irvine Unified School District is not eligible for concentration funding because its enrollment does not exceed the 55 percent threshold.

Professional Development

Professional Development

2017-2018: This year, the focus of our professional development hours centered around PLCs, intervention, data and assessment, and social-emotional learning. To support the social, emotional, and behavioral needs skills necessary for all students, especially our at-risk students, to be academically successful in the classroom, we partnered with a non-profit organization called Playworks. Playworks' mission is to improve the health and wellbeing of children by increasing opportunities for physical activity and safe, meaningful play. Research shows that play is an essential developmental tool to enhance the educational environment for every student. Our goal in bringing the Playworks program to University Park is to improve our focus on the needs of our at-risk students and provide them with as many opportunities as possible to help them achieve a high level of healthy play. In the 2017/18 school year, the District adopted a new Language Arts series, and as a school site, we have incorporated WIN (What I Need) time to assist with intervention and enrichment for all our students. This time allows us to provide instruction for all students based on specific learning targets.

2018-2019: Additional staff development this year (2018-19) has included a continued emphasis on PLC's specifically increasing our reliance on formative and summative assessment data to guide instruction. We have also spent time collaborating on ways to best support our students as they develop socially and emotionally.

2019-2020 Staff development this year (2019-20) has included a continued emphasis on PLC's specifically increasing our reliance on formative and summative assessment data to guide instruction. Tier 1 instructional strategies and intervention tools were also included in professional development and PLC meetings. We have also spent time collaborating on ways to best support our students as they develop socially and emotionally. Staff participated in Restorative Practices training led by OCDE in August and October 2019. Calm Classroom training occurred four times throughout the year.

2020-2021 Staff development this year (2020-21) Our focus on staff this year is maintaining the health and safety of our staff and students during a pandemic. Additional training is also focused on instructional technology to support student learning.

2021-2022 Our professional learning is focused on teaching writing. We have adopted the Write From the Beginning and Beyond Program this year. We have dedicated all our additional hours of professional development toward the learning and teaching of writing. We are also spending time as a staff learning more about Trauma-Informed Teaching and supporting all of our student's social and emotional health.

Irvine Unified School District 2020-21 Local Accountability Report Card (LARC) Addendum

Local Accountability Report Card (LARC) Addendum

2020-21 Local Accountability Report Card (LARC) Addendum Overview

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020–2021 school year in order to meet the federal Every Students Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020–2021 school year and the 2020–2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020–2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
