2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

Canyon View School serves the children of Northwood Pointe and Orchard Hills, residential areas in the northernmost part of Irvine. Many of the residents have moved to this community from other areas of the city, and there is a high percentage of parents in professional occupations. There is a strong interest among our parents and our staff to provide a neighborhood school that is a primary focus of community activity. The partnership between the school, families, and community is the backbone of our success, and we are committed to maintaining and strengthening our high level of family engagement. We have a diverse community, and while English speaking students make up the majority of the student population, we have a number of students who represent a variety of ethnic backgrounds and speak many languages. Currently 17% of our student population is considered EL, and there are more than 26 identified languages spoken by our families. Canyon View's second

language population provides a rich source of cultural diversity.

Canyon View has been fortunate in gathering a very competent, dedicated staff that is committed to creating a caring, learning community and educational program. With the partnership of our students and parents, we work to accomplish the primary mission of Canyon View, which is "high levels of learning for all." We are proud to be a high performing school with an outstanding educational program. Our students consistently outperform the average for both Orange County and the state of California on English Language Arts and math state assessments, and our community recognizes that our teachers support high levels of learning for all students. Our school utilizes a Multi-Tiered System of Supports, which allows us to address the needs of all students through high quality instruction, interventions, and enrichment.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

Canyon View enjoys a state-of-the-art school facility to support its educational program. Completed in 2000, the school was the first in Irvine to include infrastructure to support technology-based teaching and learning. We continue to update our technology yearly with a current emphasis on providing Chromebook Carts and iPad carts for classroom use. An Information Resource Center (IRC) serves as an electronic hub for the school, providing information access and communication throughout the building, community and world. The facility includes science, art and music specialist rooms, in addition to classrooms for special education class use. The multi-purpose room functions as a large theatre, with a raised stage and sound system that facilitate integration of the performing arts with other curricular areas. There is a safety alarm system that is supported by a modern, multi-option phone system. A lift provides access to the multi-purpose stage area for the handicapped. T-line connections and a LAN with a fiber optic spine ensure timely exchange of information. In summer, 2018, our seven modular units adjacent to the permanent facility were replaced by permanent building with eight classrooms. This building is fully air conditioned, offers full internet access to students and provides an attractive learning environment for our students. In 2022, portions of our building were renovated to provide updated Music Classrooms, Design Lab, Innovation Lab, and conference room. New carpeting was added throughout the school. In 2024, three portable classrooms were added to our site to accommodate increased enrollment. An additional Kinder classroom is currently under construction and is scheduled to open with students in 26-27.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

A major factor in school success is the high degree of parent involvement in every aspect of their child's school life. Hundreds of moms, dads, and other relatives volunteer in classrooms, participate in School Site Council and PTA activities, and enrich school life through service on nearly 40 special committees. The Canyon View parent community significantly augments school programs and services through fundraising. They provide richly enhanced curricular materials and programs, conduct legislative action activities, and support the Irvine Public Schools Foundation. Decision making is shared among parents and staff in the School Site Council and PTA Board as well as through a variety of volunteer leadership opportunities open to parents. In addition to the enormous role parent volunteers play in our communication system, parents are given leadership roles for curriculum and enrichment support in the following ways:

Innovation Lab: PTA funds weekly lessons for all students in our Innovation Lab, a class in which students creatively explore solutions and designs in every day contexts.

Other: Parents are encouraged to serve as classroom volunteers, and to participate in many other school wide events such as the Fall Festival, Winter Wonderland, Family Fun Night and Taste of Canyon View.

Parent-school dialogue is encouraged through participation in parent leadership groups, program focus nights, community service activities, regular school newsletters, the school website, e-mail communications, parent conferences, individual student contracts, and student organizer notes.

2025-26 School Safety Plan

Our students and staff will continue to be safe in the event of a crisis. The School Safety Committee has created a comprehensive Safe School Plan that includes clearly defined emergency procedures, and this plan is reviewed annually, most recently on 10/16/2025. Staff members regularly practice safe school procedures, including fire drills, duck and cover drills, unauthorized person/lock-down procedures, reunification drills, and full earthquake emergency response drills. The Canyon View PTA strongly supports the school's emergency preparedness program and assists in annually replenishing needed equipment and water supplies. The School Safety Committee addresses all safety considerations at school. Teachers also help to monitor the school's grounds 10 minutes before and after school. In addition, primary teachers walk their class to the front of the school at dismissal to help ensure student safety. Collaboration with the Irvine Police Department and the Irvine Traffic Department has facilitated a more safe and efficient traffic route to school. They have also helped numerous times to facilitate more effective and safe parking at and around Canyon View School. The most recent Maintenance and Operations School Site Inspection Report, indicated that Canyon View "was clear of any safety problems requiring site level correction," and that custodial services in all areas were "above normal."

Canyon View is a place where students follow school expectations. Through our Positive Behavior Intervention Supports (PBIS) System, staff develop and maintain programs to support students' social growth and awareness. Through our Multiple-Tier System of Supports (MTSS) staff support the learning of all students based on their individual needs -- both academic and behavioral. This proactive approach to supporting student behaviors has resulted in a decrease in suspensions and an increase in the number of students who report positive interactions with others at school. No students were taken to the School Attendance Review Board (SARB).

Fiscal Year 2024-25 Types of Services Funded

State, federal, and local dollars support students in K-12 public schools. The largest funding source is from the state under the Local Control Funding Formula. The Local Control Funding Formula (LCFF) is the method of allocating funds to school districts. The LCFF model has three sources of state funding with local discretion to determine how best to spend those funds in the service of students. All districts receive a BASE of per-student funding that varies slightly depending on grade level. All districts also receive SUPPLEMENTAL funding. IUSD has used BASE and SUPPLEMENTAL funding to support the following programs:

Site Programs and Services: 1) Support professional learning and teacher coaching through induction program, content TOSAs and teacher mentor program , 2) provide summer school and summer athletic programs, 3) Allocating site funding and staffing to support student achievement through support of Professional Learning Communities (PLC) and site PLC coaches, 4) Elementary P.E. paraprofessionals, 5) Support for English language learners, 6) Elementary science, music, and art programs, 7) Purchase textbooks and instructional materials, 8) Develop a technology rich learning environment including; Technology matching programs, Technology Maintenance fund and site technology support staff, 9) Maintain previously implemented class-size reduction, 10) Additional secondary sections to reduce class size, 11) Maintain positive behavioral intervention and

support program, 12) Maintain site staffing with full-time assistant principals, 13) 450:1 counseling ratio, support for large elementary schools and elementary classroom aides, 14) Support interventions and supplemental programs impacting English learners, low income and foster youth, 15) Continue to build Career-Technical Education pathways and blended on-line learning opportunities for students, 16) Implementing mental health and wellness programs and hire district and site based staff including support for the Irvine Family Resource Center.

CONCENTRATION grant funding equal to 50 percent of the base is provided to districts in which English-learners, low-income students and foster youth exceed 55 percent of the total enrollment. Irvine Unified School District is not eligible for concentration funding because its enrollment does not exceed the 55 percent threshold.

Federal funds are designed to supplement state resources by narrowing funding gaps for at-risk students, including students with disabilities, foster youth, students experiencing homelessness, and socioeconomically disadvantaged households. Federal grants include:

Title I under the Elementary and Secondary Education Act (ESEA) and Part B under the Individuals with Disabilities Education Act (IDEA)

Funds are used to support effective evidence-based educational strategies that close the achievement gap and enable students to meet the state's challenging academic standards. All schools identified for Title I operate Schoolwide Programs

Title III funds assist with language instruction for English Learners (EL) and immigrant students.

Title IV funds are used to increase district/site capacity to provide all students with access to a well-rounded education, improve conditions for student learning, and improve use of technology to improve the academic achievement and digital literacy of all students.

Finally, the Irvine Unified School District is proud of the partnerships with the Irvine Public School Foundation (IPSF), the City of Irvine with the Educational Partnership Fund (EPF) that support programs and services for all students.

Professional Development

Canyon View and the Irvine Unified School District are committed to continuous professional improvement. The District and site has staff development days, as well as afternoon and evening workshops for teachers. Staff is continuing to work on methods to differentiate instruction to better meet student needs through the Professional Learning Communities model. Other

Professional Development

professional development that Canyon View has been involved in includes Responding to Challenging Behaviors, Supporting WIN time, AI Implementation, and Zones of Regulation.

This year's school-wide goals for improving student achievement include efforts to bring our instruction into alignment with the CA Common Core Standards to ensure the development of the essential capacities. The essential capacities are knowledge, communication, problem solving, and relationship/interpersonal skills. This will be measured by accessing and navigating large quantities of information and evaluating the validity and relevance of this information. Educators will collaborate to determine what students must learn, gather evidence of the learning by examining both formative and summative assessment data, and use the evidence to better meet the needs of students through systematic instruction and enrichment. Areas of focus will be to investigate best practices for data driven decision making. In addition, we will research, develop and utilize progress monitoring tools for tier 2 and tier 3 interventions. Our goals include:

-We will continue to support high levels of academic achievement by reviewing Tier 1 instruction to ensure best first instruction that is differentiated for varied learners. We will examine grading practices through the lens of increasing equity and building hope and efficacy.

-Canyon View staff will build on the strong foundation of current SEL practices by using screening data, teacher observation, and parent/student input to identify Tier 2 student needs and responding systematically and consistently. The goal is to empower students to manage challenges in a way that is healthy and effective, and to improve community connections to positively impact attendance. We will focus on decreasing Chronic Absenteeism school-wide.

Teachers will participate in 3 full days of professional development and 6 partial days.
