2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

As we come together from all over our school district, San Joaquin Schools (IUSD Virtual Academy) is a wonderful place for students to learn and grow. San Joaquin Middle and High Schools (IUSD Virtual Academy) is a 100% online school grades 7 - 12. We recognize the importance of supporting the social/emotional well being of our students. We want your students to know that they are valued, appreciated and the most important part of our school. Our school community values positive academic and social growth, believes in a rigorous well-rounded education, values diversity, and looks out for the best interest of children. In Irvine Unified School District, we promise to provide the highest quality educational experience we can envision. We evaluate our effects on student learning and achievement by focusing on evidence of student learning. IUSD educators acknowledge the importance of many different types of assessments, or multiple measures, as part of a balanced assessment

2025-26 School Description and Mission Statement

system in determining our effect.

This is a time of great potential and promise for our students. At IUSD Virtual Academy we recognize that we have been given a huge responsibility. Our educational platform is designed to allow students to access a rigorous curriculum in a collaborative environment that meets the standards of our district as well as the unique needs of each student. The IUSD Virtual Academy promotes a shared responsibility of learning and recognizes the value of the role of our parents and staff in the success of our student.

Our Mission: San Joaquin High School is dedicated to helping students achieve their individual potential through academic and personal growth.

Our Vision: Our vision is to empower students as lifelong learners, to acquire, demonstrate and value the knowledge and skills needed to participate in and contribute to the global world and embody the core values of commitment, honor and self-direction.

Student Learner Outcomes (SLO):

- 1) Effective Communicators
- 2) Critical Thinkers
- 3) Self-Directed Individuals
- 4) Contributing Community Members

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

For the 25-26 School year, San Joaquin schools (IUSD Virtual Academy) is 100% online.

Our emphasis — to ensure a safe school environment for our students — includes the re-certification of our staff in disaster preparedness, such as search and rescue techniques, CPR/First Aid, and in-service activities related to school safety assessments, violence assessments, legal updates, gangs and gang identification, and aggressive involvement by all stakeholders in assuring a safe school environment. Apart from this, we have an annual district safety inspection. Our continued success depends on close working relationships between district administrators and school faculty and staff, as well as the active participation of parents and community leaders. San Joaquin students and staff have an exceptionally excellent collaborative working relationship with the Irvine Police Department's School Resource Officers and investigators. Students take pride in these relationships and the ability to keep San Joaquin safe.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 Career Technical Education Programs

Career Technical Education Programs (2024-25 School Year)

The Irvine Unified Career Technical Education (CTE) program offers students the opportunity to explore high-demand career industry sectors, aligning with California's CTE Model Curriculum Standards and Career Readiness Standards. CTE courses are integrated into the academic program, with many also approved as UC a-g courses, fulfilling admission requirements for the University of California and California State University systems.

At San Joaquin High School, students can enroll in the following CTE courses:
AP Computer Science Principles

In addition, the district's partnership with Coastline Regional Occupational Program (ROP) expands career exploration opportunities through various industry-specific courses. Many of these courses articulate with regional community colleges and lead to industry-recognized certifications.

Irvine Unified actively collaborates with regional consortiums, such as OC Pathways, Vital Link-CTEoc, the Irvine Chamber of Commerce, and the Orange County Business Council. Teachers benefit from professional development opportunities and work closely with industry representatives who serve as guest speakers, mentors, and advisors. Business community members also participate in the Career and Technical Education Advisory Committee.

The CTE program at San Joaquin High School has a strong guidance and counseling component, including individual and group counseling sessions focused on career exploration and college preparation. Students receive additional support from the

2024-25 Career Technical Education Programs

school's College/Career Specialist and the Coastline ROP Career Specialist to help them prepare for their future, whether it be postsecondary education or employment.

College Preparation

Students have the opportunity to visit colleges and community colleges to experience different academic environments and explore potential career pathways. Workshops cover important topics such as FAFSA and Cal Grant applications, personal statement writing, and resume creation. Seniors also participate in one-on-one sessions to develop personalized post-high school plans.

Career Exploration

Students can engage in career assessments to identify their strengths and interests, helping them explore potential career paths aligned with their skills. Workshops on resume writing and interview skills are available, along with opportunities to connect with guest speakers from various industries, providing insights into different professions.

Financial Literacy

Understanding the importance of financial literacy for both college and the workforce, workshops are offered on topics like budgeting, saving, and managing student loans. Information on scholarships and other financial aid options helps students make informed decisions about funding their education.

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

2025-26 School Safety Plan

For the 25-26 School year, San Joaquin schools (IUSD Virtual Academy) is 100% online.

Our emphasis — to ensure a safe school environment for our students — includes the re-certification of our staff in disaster preparedness, such as search and rescue techniques, CPR/First Aid, and in-service activities related to school safety assessments, violence assessments, legal updates, gangs and gang identification, and aggressive involvement by all stakeholders in assuring a safe school environment. Apart from this, we have an annual district safety inspection. Our continued success depends on close working relationships between district administrators and school faculty and staff, as well as the active participation of parents and community leaders. San Joaquin students and staff have an exceptionally excellent collaborative working relationship with the Irvine Police Department's School Resource Officers and investigators. Students take pride in these relationships and the ability to keep San Joaquin safe.

In order to keep the virtual learning environment safe, we utilize authentication measures in our zoom classrooms along with other internet security measures.

Fiscal Year 2024-25 Types of Services Funded

State, federal, and local dollars support students in K-12 public schools. The largest funding source is from the state under the Local Control Funding Formula. The Local Control Funding Formula (LCFF) is the method of allocating funds to school districts. The LCFF model has three sources of state funding with local discretion to determine how best to spend those funds in the service of students. All districts receive a BASE of per-student funding that varies slightly depending on grade level. All

Fiscal Year 2024-25 Types of Services Funded

districts also receive SUPPLEMENTAL funding. IUSD has used BASE and SUPPLEMENTAL funding to support the following programs:

Site Programs and Services: 1) Support professional learning and teacher coaching through induction program, content TOSAs and teacher mentor program , 2) provide summer school and summer athletic programs, 3) Allocating site funding and staffing to support student achievement through support of Professional Learning Communities (PLC) and site PLC coaches, 4) Elementary P.E. paraprofessionals, 5) Support for English language learners, 6) Elementary science, music, and art programs, 7) Purchase textbooks and instructional materials, 8) Develop a technology rich learning environment including; Technology matching programs, Technology Maintenance fund and site technology support staff, 9) Maintain previously implemented class-size reduction, 10) Additional secondary sections to reduce class size, 11) Maintain positive behavioral intervention and support program, 12) Maintain site staffing with full-time assistant principals, 13) 450:1 counseling ratio, support for large elementary schools and elementary classroom aides, 14) Support interventions and supplemental programs impacting English learners, low income and foster youth, 15) Continue to build Career-Technical Education pathways and blended on-line learning opportunities for students, 16) Implementing mental health and wellness programs and hire district and site based staff including support for the Irvine Family Resource Center.

CONCENTRATION grant funding equal to 50 percent of the base is provided to districts in which English-learners, low-income students and foster youth exceed 55 percent of the total enrollment. Irvine Unified School District is not eligible for concentration funding because its enrollment does not exceed the 55 percent threshold.

Federal funds are designed to supplement state resources by narrowing funding gaps for at-risk students, including students with disabilities, foster youth, students experiencing homelessness, and socioeconomically disadvantaged households. Federal grants include:

Title I under the Elementary and Secondary Education Act (ESEA) and Part B under the Individuals with Disabilities Education Act (IDEA)

Funds are used to support effective evidence-based educational strategies that close the achievement gap and enable students to meet the state's challenging academic standards. All schools identified for Title I operate Schoolwide Programs

Title III funds assist with language instruction for English Learners (EL) and immigrant students.

Title IV funds are used to increase district/site capacity to provide all students with access to a well-rounded education, improve conditions for student learning, and improve use of technology to improve the academic achievement and digital literacy of all students.

Finally, the Irvine Unified School District is proud of the partnerships with the Irvine Public School Foundation (IPSF), the City of Irvine with the Educational Partnership Fund (EPF) that support programs and services for all students.

Professional Development

High quality staff development, like quality teaching, is learning-based, activity driven, focused on instructional improvement and is an on-going process of professional renewal. San Joaquin's Continuous Improvement Efforts enable professional staff to reexamine their assumptions about teaching and learning. Staff development activities include significant time to develop personalized responses to instructional improvement with both appropriate collegial and expert assistance networking. High quality staff development challenges professional staff to make learning dynamic, intellectually stimulating, and connected to thinking which goes beyond the classroom walls. Effective staff development creates a learning community among professional staff that strengthens the individual teacher and the bond among teachers. Tailored staff development activities are essential for maintaining and improving quality education.

Professional Development

San Joaquin High School utilizes Mondays for teacher professional development. There are 3 different activity focus areas each Monday conducted on a rotating schedule: Staff meeting, department meetings, and PLC meetings. Administrators support teachers through quarterly data review meetings, classroom walk-through's and observations. Additionally, teachers are provided 3 professional development days per year along with 12 additional hours of contractual staff development. These 12 hours are split across 12 monday sessions (1 hour each) throughout the school year. Additionally teachers work together in PLCs throughout the year amounting to 4 days.

In 2024-25 school year, our professional development focus is centered around Challenging Behaviors, School Culture/Climate, instructional strategies, common assessments, and using data to drive instruction.

This table displays the number of school days dedicated to staff development and continuous improvement.
