Request For Information (RFI), District response is in italics:

1. Q: Acer Monitors – Is the district open to substitutions of other Acer models or does it need to be the specific model number requested?

A: There is not a specific ACER model number. The unit needs to be a touchscreen for user interfaces that work with an ETC nomad puck.

2. Q: Ayrton Fixtures – The Ghibli fixtures requested are 9 years old and inefficient, we would recommend moving down to the Diablo, up to the Perseo, or (our recommendation) the Rivale which is less expensive and more efficient than the Perseo?

A: The Perseo Profile is preferred.

3. Q: Atlas AD-12BE – Item is discontinued, is there a substitute item we can quote instead?

A: Shure A13HD Heavy Duty Mounting flange for gooseneck.

4. Q: Line 198 Antenna Distro - Is there a specific model number for this distro? Ordinarily we would suggest the Shure UA844+SWB – but there are others.

A: Shure UA844+SWB is what the part number should be for a Shure system.
