

Irvine Unified School District
Consultant Pool
Request for Qualifications
Construction Management Services
September 28, 2021

I. OVERVIEW

- A. The Irvine Unified School District (“District”) seeks to solicit experienced firms specializing in construction management services for K-12 school facilities to submit qualifications for the purposes of establishing a consultant pool for upcoming projects. Firms deemed qualified, may be asked to submit a fee proposal, through a separate Request For Proposal, for specific services on K-12 school facility projects which may include new construction, modernizations, renovations, or expansions.
- B. The District anticipates the consultant pool to consist of 8 to 15 experienced firms.
- C. Selection of firms will be based on their ability to meet and exceed the criteria established within the District’s Request For Qualifications (“RFQ”), however, if a firm is selected to be in the consultant pool, it does not guarantee award of future work.
- D. Once the consultant pool has been established, a Request For Proposal for a specific project will be issued to a shortlist of firms, typically between three (3) to four (4) firms. The creation of a shortlist will be based on a firm’s RFQ submittal and their experience with similar K-12 school facility projects. This shortlist process may vary by project with the District reserving the right to select a firm from the consultant pool to perform services on a specific project. If a firm is selected to provide services, they will be required to execute an Irvine Unified School District’s standard agreement (refer to Section IX for a sample agreement).

II. BACKGROUND

- A. Located in Orange County, California, the Irvine Unified School District is committed to the highest quality educational experience for its students. The District enrolls over 35,000 K-12 students in its forty (40) school sites which includes twenty-four (24) elementary schools, four (4) K-8 schools, six (6) middle schools, five (5) comprehensive high schools, and one (1) alternative high school. In addition, the District’s educational programs include an Early Childhood Learning Center, Transitional Kindergarten, San Joaquin Schools (blended learning), Irvine Adult Transition Program, Irvine Adult School, and Irvine Virtual Academy. The District’s school calendar includes a traditional calendar and a year-round calendar. The District and the City of Irvine have formed a unique partnership through the Irvine Child Care Project. This program allows before and after-school child care for kindergarten through 6th grade students enrolled within the District.
- B. The District has nationally recognized schools with student performance well-above state and national comparisons. Since becoming a unified district in 1972, the District’s neighborhood schools are a clear reflection of the neighborhoods they serve. Open enrollment policies, on a space-available basis, encourage and support parental choice. Collectively, the contributions of creative site-based management teams; talented and caring teachers; involved parents; and supportive business and community leaders have made student achievement a top priority. At that time, Construction Manager's services shall be terminated as set forth in District's notice. In the event of termination due to a breach of this Agreement by Construction Manager, the compensation due Construction Manager upon termination shall be reduced by the amount of damages sustained by District due to such breach. In the event a termination for cause is determined to have been made wrongfully or without cause, then the termination shall be treated as a termination for convenience in accordance with Article 6.3 below, and Construction Manager shall have no greater rights than it would have had if a termination for convenience had been effected in the first instance. No other loss, cost, damage, expense or liability may be claimed, requested or recovered by Construction Manager.

6.2 ABANDONMENT OF PROJECT.

The District has the absolute discretion to suspend or abandon all or any portion of the work on the Project and may do so upon fourteen (14) day written notice to the Construction Manager. Upon notice of suspension or abandonment, Construction Manager shall immediately discontinue any further action on the Project. If the entire work to be performed on the Project is abandoned, the parties shall each be relieved of the remaining executory obligations of the Agreement, as it relates to the Project, but shall not be relieved of any obligations arising prior to

said abandonment. In the event the District abandons or suspends the work on the Project, there shall be due and payable within thirty (30) days following such abandonment or suspension compensation for all approved services performed and all approved expenses incurred pursuant to this Agreement supported by documentary evidence, including payroll records, and expense reports up until the date of the abandonment or postponement plus any sums due the Construction Manager for approved extra services.

6.3 TERMINATION WITHOUT CAUSE (FOR CONVENIENCE).

District shall also have the right in its absolute discretion to terminate this Agreement in the event the District is not satisfied with the working relationship with Construction Manager or without cause following fourteen (14) days prior written notice from District to Construction Manager. In the event that District chooses to terminate this Agreement for convenience or without cause, Construction Manager shall be compensated for all approved services performed and all approved expenses incurred pursuant to this Agreement supported by documentary evidence, including payroll records, and expense reports up until the date of the termination for convenience plus any sums due the Construction Manager for approved extra services. In addition to the compensation described above, Construction Manager shall also be reimbursed for reasonable termination costs through the payment of (1) 5% of the Construction Management Fees incurred to date if less than 50% of the Construction Management Fees have been paid; or (2) 5% of the remaining Construction Management Fees if more than 50% of the Construction Management Fees have been paid. This payment is agreed to compensate Construction Manager for any damages resulting from early termination and is consideration for entry into this termination for convenience clause.

6.4 CONTINUANCE OF WORK.

In the event of a dispute between the parties as to performance of the work or the interpretation of this Agreement, or payment or nonpayment for work performed or not performed, the parties shall attempt to resolve the dispute. Pending resolution of this dispute, Construction Manager agrees to continue the work diligently to completion. If the dispute is not resolved, Construction Manager agrees it shall neither rescind the Agreement nor stop the progress of the work, but Construction Manager's sole remedy shall be to submit such controversy to determination by a court having competent jurisdiction of the dispute, after the Project has been completed, and not before.

6.5 DELIVERY OF DOCUMENTS.

Upon termination, abandonment or suspension, Construction Manager shall deliver to District all documents and matters related to the Project.

ARTICLE 7 **INDEMNIFICATION**

To the fullest extent permitted by law, Construction Manager agrees to indemnify, defend and hold District entirely harmless from all liability arising out of:

The Construction Manager at Construction Manager's own expense, cost, and risk, shall defend any and all claims, actions, suits, or other proceedings that may be brought or instituted against the District, its officers, agents or employees, on any such claim or liability, and shall pay or satisfy and judgment that may be rendered against the District, its officers, agents or employees in any action, suit or other proceedings as a result thereof.
