

# ACADEMIC MODEL SELECTION & TEACHER ASSIGNMENT PROCESS

◆ 2020-21 SCHOOL YEAR ◆

Our students, regardless of the format, will receive the rich instruction, support, and connection they need.

\* To the greatest extent possible, elementary and middle school students will be in cohorts by grade level and by their neighborhood or assigned school (including IVA students). While IUSD will try our best to keep high school students together, it may be more challenging due to course sequencing and schedules.

\*\* Distance Learning will also provide tightly structured and standards aligned lessons, with frequent synchronous (live) learning, individualized support, peer to peer collaboration, and an infusion of new learning resources.
