

May 17, 2017

Dear Greentree Community,

Recently, the Irvine Unified School District's Facilities and Construction team held a public meeting about Measure E implementation on our campus, which will begin this summer. During the meeting, the team shared the exciting changes coming to our school and provided information about the construction schedule.

During this first series of Measure E funds, Greentree will receive interior doors on our classrooms, the creation of five collaborative learning spaces, a modified MPR floor, new flexible furniture, improvements in accessibility for some of our restrooms, as well as some minor improvements in the parking lot. These Measure E upgrades will improve safety, comfort and the learning environment for our students.

We are particularly looking forward to the collaboration spaces that will include flexible furniture and other equipment to support large and/or small group instruction. These flexible learning spaces mirror some of the features in our newer schools and help ensure all IUSD students have access to facilities that support 21st century education and career opportunities.

Construction will begin this June, after the last day of school, and will be completed in August, prior to the start of the 2017-18 school year. All construction staging and work areas on the exterior will be fenced off for safety reasons. Childcare will continue on campus this summer and the play areas will still be available for use.

To view the Facilities and Construction team's presentation, the construction timeline, renderings of the work that will be done, please visit [iusd.org/MeasureEgt](http://iusd.org/MeasureEgt), which is Greentree's dedicated Measure E webpage. Here you will find ongoing updates and information about Measure E projects on our school, including proposed Series IV Measure E upgrades to Greentree in the coming years.

If you have any questions or concerns that are directly related to our school, please contact my office. For Measure E and project specific questions, please send an email to the District's Measure E team at [MeasureE@IUSD.org](mailto:MeasureE@IUSD.org). For general Measure E information, visit [iusd.org/MeasureE](http://iusd.org/MeasureE).

Thank you in advance for your support and engagement. I will work with the District to provide regular Measure E updates to our school community; you can also access information any time on our Measure E webpage.

I look forward to the upgrades this summer, which will make Greentree an even better learning environment for our students.

Sincerely,

Tamara Brown  
Principal
