### 3. \* STUDY SESSION

#### a. High School Boundaries

##### Minutes

Facilities Consultant Tony Ferruzzo provided an overview of the topics to be discussed and briefly reviewed the decision criteria and guiding values established by the Boundary Advisory Committee.

Visuals of the original high school boundary proposal, including overlays of existing elementary, middle and high school boundaries were presented. Enrollment and geographic area projections after the opening of High School #5 were also reviewed.

A summary of major parent interests and requests based on information from the Parent Forums and other communications was shared. Various alternative scenarios were presented, including specific impacts to enrollment.

Ferruzzo reported that the Boundary Advisory Committee and Steering Committee had agreed on two changes to the original proposal:

1. To allow the non-contiguous portion of the Stone Creek attendance area to remain at Woodbridge High School, along with the rest of Stone Creek.
2. To allow the Laguna Altura and Hidden Canyon communities to remain at University High School.

Three enrollment options for opening High School #5 were presented, followed up by an in depth discussion of the pros and cons of each:

1. Open with 9<sup>th</sup> and 10<sup>th</sup> grades required
2. Open with 9<sup>th</sup> grade only
3. Open with 9<sup>th</sup> and 10<sup>th</sup> grade, with 10<sup>th</sup> grade students having choice

Ferruzzo advised that in order to ensure viable enrollment and a comprehensive program for all students, the Boundary Advisory Committee and Steering Committee are recommending Option #1.

Board members discussed further the positive and negative impacts of 10<sup>th</sup> grade choice, and received input from current and former staff who have experienced opening a new high school.
