

Provider Questions No. II
Digital Copiers RFI
November 3, 2022

Response to Providers' Questions

2.1 **Question:** What will be the number of total devices you will be looking for in April of 2023?

Answer: The District does not have any anticipated need for new copiers in April 2023. The agreement with our current provider no longer supports leasing in April 2023 and the District would like to secure a new agreement to support site and department needs as they arise. The District anticipates procuring approximately 140 copiers in July 2023. Please see the RFI for detailed information.
